MASTER INDEX 2026 / October 13, 2026

A current finding aid for the preserved original library and the new additive supplements. Use printed BINDER numbers to locate original material; do not renumber the original binder.

FILE IN THIS ORDER

Set	Pages / sheets	Printed binder range
Original coach binder	208 / 104	1-208
Extra games G31-G37	8 / 4	209-216
Coach supplement 2026	66 / 33	217-282

Combined teaching set: 282 numbered pages / 141 double-sided sheets. This separate master index is an optional front reference; its INDEX numbers do not alter BINDER numbers.

WHAT THE NEWER COLLECTIONS CONTAIN

K01-K22: complete written coaching progressions, with practice suggestions, readiness requirements, boundaries and source relationships. K01 is a game; K02-K22 are movement or technique guides.

V01-V05: short written drills adapted by Grindstone. V06-V18: source-video reference cards, with observed topics and links to existing written foundations. A reference card is not a complete teaching sequence.

The separate eight-page extra-games PDF starts with its own index on binder page 209. It remains unchanged. No copy of those seven game cards is repeated in the coach supplement.

EVIDENCE AND VERSIONS

Video metadata, source descriptions and selected-frame reviews have different limits. Read the source note on each new guide. A linked clip may show a component or variant instead of the full written progression. No full viewing of every video is claimed.

This October 2026 supplement carries the current preview wording, including K19 Roll-Out Foundation. Original frozen PDFs retain their earlier wording and original page numbers.
